5. A combined total of 152 students is presently enrolled in the introductory and self-study courses in the Language Training Center. In addition, the Language Laboratory was used for a total of 441 student hours in the preceding week.

7. [REDACTED] Course No. 4, for which the enrollment deadline was 29 August, has been postponed. After calling the attention of the Training Liaison Officers to the minimum requirement of ten students for this course, a belated effort on their part rounded up a total of eleven registrations; however, students' names which were submitted at the eleventh hour gave the course instructor no opportunity to review their qualifications. Furthermore, experience has shown that the number of students who actually enter the course is almost always less than the number registered, so that the margin over the minimum was very slim. In view of the apparent lack of support for this training and the complex arrangements which are required for its presentation, OTR decided to postpone the course pending a review with the interested offices of their requirements for instruction in this field.
